2. BELONG:

Create a community profile to find out more about your community needs and assets. Use the list of resources on page 18 of the "Go For It" insert to help identify your community. Who lives there? What needs do they have? What services are provided? This community profile will help to outline your Gold Award.

****Please attach your community profile.****

3. BELIEVE:

Crafting a vision for change is the initial step for making the change become a reality. Answer the following questions and vision statement on a separate piece of paper.

What are the top five needs of my community?

How do I know this statement is true?

Why do these needs exist?

What project can be done to address the root causes of these needs?

Where do I fit into addressing these causes?

What will my community look like after the project is complete?

What will be the long-term effects of the project on the community?

Using your answers to these questions please draft a vision statement of change for one aspect of the community needs.

My Vision Statement:

4. BUILD:

Using page 21 of the "Go For It" insert determine how you can gain the support of the people you need to support your vision. You may also need to consult STUDIO 2B focus: *Write Now* on building your persuasive skills to help you persuade others to support your position on this issue.

Consider the following questions:

Who will this benefit?

Who will help make it happen?

How do you gain the support of those people or agencies?
